

Maker Reflection: What Do You Believe?

Reflect on Teaching:

What do you believe about teaching? What is your role in students' learning? When are you most comfortable? What does great teaching look like to you?

Capturing Your Thoughts: Take a few minutes to reflect on that following questions.

Reflect on Learning:

What do you believe about learning? What is a student's role in learning? When are students most engaged? In your current classroom, what does learning look like? In your ideal classroom, what does learning look like?

Maker Reflection: What Do You Believe?

Reflect on the now:

How do your beliefs about teaching and learning align with maker-based instruction? Where are there contradictions or tensions?

Capturing Your Thoughts: Take a few minutes to reflect on that following questions.

Think about the future:

What are you most excited about in terms of integrating maker-based instruction into your classroom? What are you most worried about?
